

# MASTER GARDENERS ASSOCIATION OF BC SPRING SEMINAR 2010

"See a World of Diversity  
- In Your Own Backyard"

**Q:** What do camellias; a hot dry interior and island garden vagaries have to do with each other?

**A:** *They are samples of the biodiversity that can occur in your own garden.*

The UN has declared 2010 the International Year of Biodiversity. Vancouver has been playing host to the diverse world of sports with the Olympics. What better way for the MGABC to celebrate the diversity of our province, its' members and the gardening world than with speakers from different places.

**Come - Spend the day  
Learn about diversity within  
your own garden with lectures by:**

"The World of Camellias"

Jennifer Trehane

- Author & expert from the UK
- Director of International Camellia Society
